Statement from House Appropriations Chairman Denise Grimsley Regarding Budget Negotiations

Tallahassee, Fla. – House Appropriations Chairman Denise Grimsley (R-Sebring) today released the following statement regarding budget negotiations.

“Every House offer has been within the agreed upon and published allocations, and to suggest otherwise is misleading and untrue. The difference between the House and Senate HHS budgets is that the House is trying to level fund critical needs and resolve deficits and the Senate is trying to fund political payback to special interests, Member projects and early implement federal health care reform.”
